NIIMBOT

ABOUT NIIMBOT

Established in 2012, Wuhan Jingchen Intelligent Identification Technology Ltd. has been focusing on the intelligent label printing industry for over a decade. NIIMBOT has always adhered to the integrated development path of "research, production, and sales," fulfilling the brand promise of "simpler" through quality innovation, leading the industry's development towards mobile intelligence. Its product services cover commercial retail, office, life, communication and power, government and enterprise education, finance and medical fields, providing users with one-stop solutions from "item labeling" to a "full lifecycle management of items and data," and is widely recognized by our customers.

REAL USER PRINTING CASE

Name: Petri Dish
Number: 207722
Purpose: Biological
experiments

Centrifuge
Number: Z-15
Purpose: Chemical Experiment
Ownership: Peking University Medical College
(This product can be used in a
low-temperature environment below -80°C)

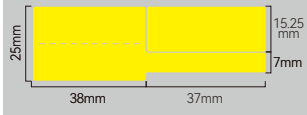

Reagent Name:
Dilute Hydrochloric Acid Solution
Concentration: HCl 10g/L
Preparation Date: June 6, 2025

Name: hydrogen peroxide solution
Concentration: 30%
Configuration person: Wang Xiaoming
Configuration date: May 5, 2025
Effective date: May 12, 2025

Liquid nitrogen (LN₂)
Container number: LN-2024-001
Inflation date: 2024.07.15
Expiry date: 2024.10.15
Contact: Li Yi Xue
(Laboratory 051-123-4567)

Sample type: COVID-19 virus RNA
Sample ID: COV-24KR-0052
Collection date: 2024.07.10
Storage conditions: -80°C ultra
low temperature freezer
Research leader: Li Xiaoming
(Institute of Medicine)

Various Sizes Available

Multi-Use Cable Horizontal

≈90sheets/roll
